Re: PC Technology Professionals

Mesquite Medical & Surgical has been with PC Technology for approximately 18 months and has been very pleased with their services. Both Mark & Imran are very responsive when troubleshooting a problem and always gets it resolved with very little or no down time. I feel like they have been a godsend for our office.

They are very professional and create little or no distractions when they do have to come to the office. Most of our problems are fixed online.

They have also offered valuable advise regarding purchases and has saved our company time and money.

I highly recommend the services of PC Technology Professionals. If you have any additional questions, please feel free to contact me.

Regards,

Karola Buffington  
Office Manager
